DETAILED ACTION

1. The remarks filed 04/02/2007 have been entered and are persuasive.

Allowable Subject Matter

2. Claims 1-11 are allowed.
3. The following is an examiner's statement of reasons for allowance: the prior art of record does not teach the claimed subject matter of claim 1; therefore, claim 1 is allowable for the reasons pointed out by Applicant's remarks (see p. 6-8, regarding 102 rejection and p. 9, regarding 103 rejection). The closest prior art are Sachdeva et al (US 6,512,994) and Rubbert et al (US 4,648,640) teaches dental alignment by producing a three dimensional digital model of an orthodontic patient (column 3, lines 47-48)by determining a scaling factor which is based on a linear error (i.e. misalignment) term in each of the x,y,z axis where the scale occurs for each teeth (column 4, lines 50-52) but there is no teaching of the nonlinear adjustment to provide precisely fitted curvature data of the teeth as part of a dental arch as required by the claim language. The Examiner finds no reason or motivation to combine the above references in an obviousness rejection thus placing the application in condition for allowance.

It follows that claims 2-11 are then inherently allowable for depending on an allowable base claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany

the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
